SQURE.IO Messenger

Quick Start Guide

Welcome to SQURE!

With SQURE Messenger, you communicate with encryption, manage your team centrally and stay GDPR-compliant – on your phone, on the desktop or directly in the browser. With SQURE Free you can start right away: 10 users, free forever. You can try Cloud Standard and Cloud Plus free of charge and without obligation for 90 days, while the On-Premise Edition runs in your own infrastructure.

Ready to go in 7 steps

1. **Choose a package:** Click **Register**.
2. **Register:** Enter your first name, last name and email address and click **Register**.
3. **Wait a moment:** We are setting up your package. Wait until the process is complete.
4. **Invite your team:** Enter the first name, last name and email of the people you want to invite. Use **+ Add another user** to add more people and **Send invitations** to send the invitations. Each invited person will then receive their own email to set their password. With **Skip for now** you create your users later directly in the portal. They will also receive an email to set their password.
5. **Set up your two accounts:** As the purchaser, you receive two emails: one for the portal admin (“SQURE Account Information”, Portal: https://portal.squre.io) and one for your user account. Use the link in each email to set the respective password.
6. **Use SQURE.IO:** Mobile app (App Store, Google Play), desktop app (macOS, Windows) or web chat in the browser. All options: https://squre.io/downloads/.
7. **Log in:** Log in with your username and password and confirm the privacy policy with **Yes**.
